### "TALENT" SEMINARS SUCCESSFUL

The seminars to discuss the production and distribution of the new fat-containing admixture, TALENT, were very well attended. Twenty-six persons attended the seminar in Des Plaines on December 6 and twenty-two persons attended the Atlanta seminar on December 12. The Denver meeting, December 19, will not have as many attendees but the interest is expected to be just as great. From the interest expressed at these conferences it is anticipated that a number of renderers will request a license to manufacture and distribute TALENT.
